III. Project Details

Project Description:

In 2014, the Zamboanga City Water District (ZCWD) contracted the Development Academy of the Philippines (DAP) to conduct a participatory organizational assessment and strategic planning. The intervention enabled ZCWD to revisit its strategic directions and formulate its medium term plan 2015-2020.

Halfway in the period covered of its formulated plan, the ZCWD identified the need to review and assess where the organization is right now in terms of their commitment enshrined in their medium term plan and the course of actions needed to ensure the attainment of their strategic medium-term directions.

In view of this, the ZCWD requested DAP for assistance. In response, DAP proposed the conduct a midterm assessment of the ZCWD strategic to enhance its strategic management and action plan implementation.

Project Objective: The proposed intervention sought to help the ZCWD review and assess the implementation of its strategic plan.

Specifically, the DAP technical assistance allowed ZCWD to:

1. Identify the agency's midterm level of accomplishment;
2. Surface performance issues and capacity gaps along key organizational objectives; and,
3. Identify opportunities for improvement and priority institutional interventions to address the performance gaps to ensure attainment of the remaining strategic commitments.

Project Type: Technical Assistance/Consultancy
Project Beneficiary: Zamboanga City Water District (ZCWD)
Regional Coverage: Region 9 (Western Mindanao)

2017 PROJECT ACCOMPLISHMENT REPORT

IV. Project Accomplishments

Key Activity Implemented:

- Conduct of Workshop (July 18-20, 2017)

Major Outputs:

- Workshop Documentation Report bearing the 2017-2020 Corporate Strategic Plan (Strategy Map, Level 1 [Bureau] Scorecard, Initiative Profiles)

Project Impact/Benefits:

- The project allowed the corporation to realign its strategies with the current environmental situation, current thrusts and priorities of its leadership, and imperatives from its Board of Directors.
- The project allowed the corporation to review and revise its performance scorecard in compliance with the requirements of its oversight agency.

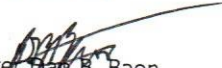

Lessons Learned:

1. The "Affinity Diagram" is a useful tool in grouping/clustering the recommendation and options identified by the participants in order to develop their programs and projects.
2. The presence of members of the Board of Directors allowed the participants to receive immediate feedback and suggestion to guide them and improve their workshop outputs.
