| Training Course on Strengthening Risk Management   | This 5-day training course focuses on transforming the Quality Management System (QMS) of organizations into a risk-based system, in line with ISO 9001:2015's risk-based thinking concept and guided by ISO 31000:2018 risk management guidelines. It integrates a Business Continuity Management System (BCMS) into the QMS to bolster organizational risk management capability and resilience. The course outlines the progression from QMS through risk management to BCMS, essentially providing training on establishing an Integrated Management System (IMS). | Batch 1:<br>May 26 to 30<br><br>Batch 2:<br>July 21 to 25<br><br>Batch 3:<br>September 22 to 25  |                          | Batches 1, 3:<br>Virtual<br><br>Batch 2:<br>Face-to-Face<br>DAP Bldg.
