FEEDBACK (please indicate here your comments and/or suggestions for further improving our services.)

The GQMP 2024: Development of a QMS Certifiable to ISO 9001:2015 project has made significant progress in enhancing the Quality Management System (QMS) of Batanes State College (BSC), positioning it for ISO 9001:2015 certification. The structured approach taken to align processes with ISO standards has established a solid foundation for meeting certification requirements.

The review of BSC's current practices, coupled with the identification of best practices and areas for improvement within the QMS, proved invaluable. The Project Manager's contributions were exceptional in assisting the institution, ensuring full compliance in preparation for the certification phase. His expertise and support played a crucial role in the success of the project.

For future projects, DAP may consider extending the project duration to two (2) years. This would provide sufficient time for recipient institutions, especially those just beginning to develop their QMS, to fully prepare for certification.

Overall, the project has had a significant positive impact on Batanes State College. The support provided by the Project Manager, facilitators, Resource Speakers, and DAP as a whole was exemplary. This initiative served as an excellent platform for developing the knowledge and skills necessary for

continuous improvement, ensuring that the College's standards are aligned with international best practices.
