FEEDBACK (please indicate here your comments and/or suggestions for further improving our services.)

Thanks for all the arrangements during the study mission, everything was well-organized, especially the profile/suggestions topics for the site visit organizations and the full introduction of the training course. However, if possible, I hope we can receive the list of participants from the site visit venues(especially government agencies and training courses) in advance, for better preparation from our resource persons, as well as a more accurate schedule/time arrangement
