Mr. Bobby Jones Domdom
Dr. Rowena Alcido
Dr. Angeli Comia
Dr. Shirley Pador

III. Project Details

Project Description

The Master in Public Management major in Health Systems and Development (MPM-HSD) is a 38-unit interdisciplinary graduate program for the Doctors to the Barrios (DTTBs) and health sector **practitioners and professionals**. It incorporates the Academy's distinctive features of combining both theoretical and practical cum functional competencies, as well as building stewardship values.

Program graduates are envisioned to be health systems reform implementers and rural health development managers who will serve as change catalysts in their respective areas.

MPM-HSD uses and includes adult and experiential-based learning, interactive sessions with experts and practitioners, field exposures, and an action oriented thesis scheme that combines scientific research with program development and implementation. Its major learning areas involve strengthening scientific and technical knowledge and skills on one hand, and developing personal and managerial efficacy on the other hand. These cover research, planning and implementation of programs on health sector reform and other related initiatives. Students are honed on scientific as well as managerial approaches and tools for pursuing reforms and proposing strategic solutions to problems and concerns in the health sector.

Project Objective

MPM-HSD aims to provide a holistic development package for the health sector practitioners. Students of the Program will be able to observe, learn or share from best practices and have a chance to apply the optimum skills that will enable them to:

Critically examine health and development issues and concerns that confront health professionals in the public sector at the national and local /Municipal Level;

Holistically understand the causes and factors that bear on health and development issues and concerns;

Select and apply appropriate Leadership and management strategies in designing, planning, implementing, monitoring, and evaluating health policies, programs, projects, and interventions at the Municipal/Local Level, and

Live out the principles of effective and efficient health governance, such as transparency and accountability, integrity, sound ethics, commitment to public service, among others.

PROJECT ACCOMPLISHMENT REPORT

Project Type

Education

Regional Coverage

National Coverage

IV. Project Accomplishments

Key Activities Implemented

Conduct of foundation, core and major courses; APP proposal and final defense; Graduation

Major Outputs

Summary Reports; Grade sheets

Project Impact

1. Health development reforms in the LGU areas, Provincial and Regional Offices
2. Support of the Department of Health for the innovative health programs implemented on the grounds

V. Attachments

- Summary of Course Evaluation and Resource Person

Prepared by:

QUEENCY LYN RAAGAS
Learning Manager

Noted / Approved by:

ALAN CAJES, PhD
Group Head

Notes:

Project Details on Section I-III can be generated thru PMIS based on PMs Inputs.

1. Project Managers are required to accomplish Section IV & provide Section V to reflect results of project implementation
2. Project Managers can update/adjust the pre-filled sections(I-III) based on actual data
